DETAILED ACTION

The amendment filed, 4-29-03, is acknowledged. Claims 5-10, 17-19 were canceled and claim 1 was amended. Claims 1-4, 11-16 and 21-24 are pending in this application.

1. Claims 11-16 and 20-24 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Groups II-V, there being no allowable generic or linking claim. Election was made without traverse in Paper No. 10. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144). See MPEP § 821.01.

Withdrawn Rejections

Claim Rejections - 35 USC § 112

2. The rejection of claims 5-7 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention for the reasons set forth in the previous office action and the reasons set forth below is hereby withdrawn.

3. The rejection of claims 5-10 and 17-19 rejected under 35 U.S.C. 112, first paragraph is hereby withdrawn.

4. The rejection of Claims 7, 9, 18-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pannekoek is hereby withdrawn in view of the canceled claims.

Maintained Rejection

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1 remains rejected under 35 U.S.C. 102(b) as being anticipated by Pannekoek for the reasons set forth in the previous office action and the reasons set forth below.

The claims are drawn to a peptide comprising the sequence EEIIMD and methods of using said peptides.

Applicants argue that Applicants have amended the claims to contain the language "consisting of" rather than "having." Thus, the reference does not teach every element of the claim.

Applicant's arguments filed 4-29-03 have been fully considered but they are not persuasive.

As stated in the previous office action, on page 5 of the reference, PAI-1 is defined to of the sequence SGTVASSSTAVIVSARMAPEEIIMD (see page 5, lines 23-27). The instant claims state that X1 is a hydrogen, amino terminal blocking group, or **one to twenty amino acid residues**. The reference still anticipates the claims since X1 is a **19 amino acid sequence** SGTVASSSTAVIVSARMAP, X2 is E, X3 is E, X4 is I, X5 is I, X6 is M, X7 is D and X8 is H, by the virtue of a carboxyl terminus. The reference teaches every element of the claimed invention. The mere fact that the claims have been amended to "consisting of" does not alter the definition of the X variables in the claim.

The rejection is maintained.

6. Claims 2-4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Claim 20 is allowed.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
